SAN FRANCISCO, Aug. 13, 2024 /PRNewswire/ -- Serve Robotics Inc. (the "Company" or "Serve") (Nasdaq: SERV), a leading autonomous sidewalk delivery company, today announced financial results for the second quarter 2024 ended June 30, 2024.

"We are pleased to report another strong quarter, extending our 30-month track record of double-digit month-over-month growth and improvements in key operational metrics," said Dr. Ali Kashani, Serve's Co-founder and CEO. "This quarter, we expanded into Koreatown in Los Angeles, signed important agreements with Magna International Inc. ("Magna") and expanded on our supply agreement with Ouster Inc. ("Ouster"), and appointed our Chief Hardware & Manufacturing Officer to spearhead our fleet expansion efforts. I am particularly pleased to announce that Serve has completed the design of our third-generation robot. Looking ahead, we are focused on executing Serve's fleet expansion plan to deploy at least 250 additional robots in Los Angeles by the end of Q1 2025. We believe our continued execution of this plan through year end 2025 will position Serve to deploy all 2,000 robots under our Uber Eats agreement, which at full utilization is expected to generate \$60 to \$80 million in run-rate revenue annually."

Second Quarter 2024 and Recent Highlights

- **Public Offering & Follow-on Transaction:** On April 18, 2024, Serve completed a successful public equity offering, which generated \$40.0 million in gross proceeds, and through which Serve's common stock began trading on The Nasdaq Capital Market under the ticker symbol "SERV". Post quarter-end, the company also completed a private placement transaction with gross proceeds of \$15.0 million.
- **Operational Performance:** Serve averaged 385 daily supply hours during the second quarter 2024, a 106% increase year-over-year and a 28% increase quarter-over-quarter. The Company also achieved an 85% increase in daily active robots year-over-year and a 23% increase quarter-over-quarter.
- **Los Angeles Expansion:** In June 2024, Serve announced the expansion of its delivery operations into Koreatown and began onboarding new local merchants through its partnership with Uber Eats. The coverage expansion represents execution of Serve's long-term plan to broaden its geographic reach in Los Angeles and across the U.S.
- **Manufacturing activities commenced following Magna and Ouster agreements:** In the second quarter Serve commenced manufacturing activities on its 2,000-robot fleet, led by Euan Abraham, the Company's newly promoted Chief Hardware & Manufacturing Officer. Serve also entered into a purchase and production agreement with Magna, under which Magna will become the contract manufacturer of Serve's delivery robots, and signed an amendment expanding its supply agreement with Ouster to equip its next-generation robots with upgraded sensors for enhanced performance.

Second Quarter Financial Highlights

- Second quarter revenue was \$0.47 million, including \$0.30 million of software service revenue derived from the Company's software services agreement with Magna. As forecasted, Serve's services contract with Magna was significantly completed during the second quarter, and the Company does not anticipate material software services revenue in Q3 2024.
- As of June 30, 2024, the Company had \$28.8 million of cash and cash equivalents.
- As of June 30, 2024, the Company had 36.5 million shares of common stock outstanding, and
